

**Board leadership can make the difference between success and failure. We work with a wide range of philanthropic and nonprofit organizations to define the role of the board and advise on issues of composition, structure, tenure, performance, sustainability, and strengthening tailored to the unique needs of your organization.**

## Why Governance Matters

At TCC Group we believe the more effective the board, the more effective the organization. Your board ensures that your organization has the resources, leadership, and oversight needed to achieve its mission. To be successful, boards must establish dynamics that respect unique perspectives while centering collaborative decision-making.

## Our Approach

### Engage

Provide board facilitation through targeted retreats and workshops, team-building activities, and advisory boards that support strategic planning and improve governance practices over time.

### Refine

Work with new and mature boards to establish best practices and refine existing structures. Also help companies spin off corporate foundations or build internal corporate social responsibility (CSR) departments by creating tailored governance structures that achieve your specific goals.

### Assess

Lead board assessments within board development or strategic planning to uncover meaningful insights that improve board functionality.

### Strengthen

Partner with community advisory councils, succession planning groups, advisory committees, and other structures to strengthen their efforts and/or partner with the board in its strategy work.

## What Our Partners Say

“You will often find people who know your organization but not your sector, or vice versa. TCC Group is deeply connected to both.”
