## Our Approach

### Collaborate

Partner with you to create grant guidance documents and operational blueprints, and design grant application processes materials anchored in trust-based philanthropy principles. We manage program development, implement services, and oversee budgets, while building deep, responsive relationships with grantees.

### Impact

Help you develop, assess, refine, and benchmark grantmaking strategies that fit your budget and maximize the potential for impact, while conducting landscape and feasibility studies to understand the potential of your grantmaking program.

### Learn

Foster a culture of continuous learning that leads to stronger partnerships and better outcomes. Develop theories of change and logic models to help establish a shared vision, strong evaluation framework, consistent communication with stakeholders, and concrete perspectives to inform your grantmaking decisions.

### Support

Reduce or eliminate your administrative burden and minimize operational costs through comprehensive back-office services. Facilitate board governance and operations, including grantmaking, finance, stakeholder relations, and more.
